EDUCATION

University of Central Florida
Bachelor of Science in Computer Science

Orlando, FL
Expected Graduation Date: May 2027

EXPERIENCE

Network Technician

May 2023 – May 2024

West Networks

Gainesville, FL

- Built and deployed 100+ portable network units for enterprise clients including Disney, Carnival Cruise Lines, Frontier Airlines, and rural healthcare providers, integrating Peplink BR2 Pro/BR1 routers with lithium battery systems and 4G/5G antennas.
- Performed hardware assembly including soldering battery connections to router power systems, configuring dual-SIM cards (AT&T, T-Mobile), and verifying connectivity using InControl monitoring software before deployment.
- Configured dual-SIM automatic failover systems enabling devices to switch between cellular providers for optimal performance in remote deployments including ocean vessels, mobile healthcare units, and theme park operations.
- Monitored global network infrastructure remotely via **InControl software**, tracking real-time operational status for devices operating everywhere from cruise ships at sea to rural medical facilities.

PROJECTS

Legal Document AI - FastAPI Workflow System

[GitHub Link](#)

KnightHacks 2025 | Python, FastAPI, Google Gemini AI, React

- Built prototype workflow system in **48 hours** to extract structured data from legal text inputs using **Google Gemini API** Implemented **FastAPI** endpoints for document processing with real-time status tracking.
- Developed FastAPI backend with interactive documentation for testing AI extraction endpoints.
- Created **TypeScript** interface for document upload and task submission with real-time processing status display.

Canvas iMessage Integration

[GitHub Link](#)

March 2026 | Node.js, Linq API, Canvas LMS API

- Developed iMessage bot using **Linq API** and Canvas LMS API to provide real-time access to grades, assignments, and course information.
- Implemented response formatting for multiple data types including grade summaries, assignment deadlines, and course enrollment lists.
- Deployed working integration handling bidirectional messaging between iMessage and Canvas via Render.

LEADERSHIP

Google Developer Student Club

Oct. 2023 – Dec. 2024

Marketing Lead

University of Central Florida

- Lead and facilitate weekly club meetings, ensuring effective communication and project alignment among team members.
- Reached out to industry professionals and companies to secure guest speakers for events, enhancing club members' exposure to real-world experiences.
- Collaborated with external organizations to plan and execute workshops and events that provided members with valuable industry insights and practical skills.
- Organized and managed social media to foster community engagement and networking opportunities among club members and external partners.

TECHNICAL SKILLS

Languages: Python, C, Java, JavaScript, HTML/CSS

Frameworks and Libraries: FastAPI, Node.js, React

Developer Tools: Git, Visual Studio, GitHub, JetBrains IDEs

Relevant Coursework: Discrete Mathematics, Matrix and Linear Algebra, Data Structures and Algorithms, Object-Oriented Programming
