EDUCATION

University of Central Florida
Bachelor of Science in Computer Science

Orlando, FL
Expected Aug 2027

Santa Fe College
Associate in Arts

Gainesville, FL
Aug 2022 – May 2024

PROJECTS

SafeFlight | *React, Node.js, PostgreSQL, Leaflet* | safeflight.onrender.com May 2026 – Present

- Built a **React + TypeScript** client plotting live aircraft positions on a Leaflet map, integrating 3 **REST APIs** (AeroDataBox, OpenSky, aviationweather.gov)
- Engineered a **Node.js/Express** API with Google OAuth sign-in, restricting flight data to each user and their accepted friends
- Designed **PostgreSQL** database via **Prisma** to store users, flights, and friendships

SignSpeak | *React, TensorFlow.js, MediaPipe, Python* Apr 2026 – Present

- Developed an American Sign Language interpreter to recognize letters and common phrases in real time via webcam, with spoken output through the **Web Speech API**
- Engineered client-side ML pipeline via **MediaPipe Hands** to extract 21 hand landmarks in 3D per frame
- Developed **Python** processing pipeline to normalize landmark coordinates from 87K+ image dataset (ASL Alphabet) and train a multi-layer classifier in **Keras**

GameDay | *JavaScript, React, Vite, Firebase (Auth/Firestore)* July 2026

- Developed a full-stack watch party web app in a 3-person team, enabling users to organize World Cup meetups
- Implemented secure Google sign-in using **Firebase Authentication** ensuring only logged-in users can access party management features
- Delivered a serverless architecture on **Firestore**, handling data storage and real-time sync within **12-hour** hackathon time-frame

EXPERIENCE

Network Technician May 2023 – May 2024
West Networks Gainesville, FL

- Built and deployed 100+ portable Peplink BR2 Pro/BR1 routers with dual lithium batteries for remote usage
- Configured dual-SIM protocol system enabling devices to switch between cell carriers for optimal performance in remote areas
- Monitored the deployed routers through Peplink InControl, diagnosing cellular link failures remotely

Marketing Lead Aug 2024 – Apr 2025
Google Developer Student Club @ UCF Orlando, FL

- Grew club social media following 50% through consistent event promotion and outreach
- Promoted 15+ technical workshops over two semesters, averaging 25 student attendees per event
- Coordinated weekly meetings and event promotion for a team of 5 members

TECHNICAL SKILLS

Languages: Python, C, JavaScript, Java, TypeScript, SQL, HTML/CSS

Frameworks & Libraries: React, Node.js, Express, FastAPI, Tailwind CSS, TensorFlow.js, MediaPipe, Leaflet

Databases: PostgreSQL, Prisma, Firebase Firestore

Developer Tools: Git, GitHub, Vercel, Docker, Render
